Ninth District.

This is a District, cut out for the gullant Colfax to try his fortunes in. Commencing with St. Joseph is runs three counties south—St. Joseph Marshall and Fulton—one county broad, and then spreads out five counties broad from southwest to northeast, making its shape something like an inverted italic J. And see how they have taken out of the Eisrenth And sec how they have taken out of the Eleventh District the two strong Republican counties of Howard and Wabash, to make it reliably Democratic. But it is needless to give particu-lars further. No fair and candid man can mark out the Districts without coming to the con-clusion that it was the design of the framers of this apportionment bill, without regard to shape, natural connections, or conveniencies, to so form the Districts as to defraud as far as possible the Republican party of representa-tion in Congress.

The proper and constitutional time to district the State, was by the last Legislature. But the Republicans had a majority in that Legislature, and hence the Democrats opposed the re-districting of the State, and defeated the measure by belting and breaking the quorum. They refused to come back to pass the necessary apportionment bills, without a pledge from the Republican majority not to pass the apportionment bill. Thay also refused to meet in speciel esssion, after the breaking out of the rebellion, unless such pledge was given. They alleged that, as

of Holland and Portugal, and in modern times

American struggle. The questions of Holland and Portugal, and Beigium and Greece,
were manageable matters compared to the
dreadful importance of attempting to give

THE REPORT OF THE PARTY OF

Chicago Tribune BATURDAY, FEBRUARY 28, 2

in regard to its inefficience is

during the campaign in Western Arasses. By this report if appears that the amount of scontraband stock, herees mules, cattle was cons, &c., taken by Gen. Blust from the campy, and sold for the besent of the Government, realized a sum not less than \$00,000. This does not include the stock, &c., now in meet yet the troops. Among these explanes were 140 wagons, with four mules to some taken at Van Buren by Gen. Blust, east in Fort Scott, but diverted on the road, to Springfield, by order of Gen. Schodeld.

The report of Capt. Oliver Barber, Commissary of Subesistence, has not been completed. But it will also show at large a percentra secount, we doubt not a does Capt. Hascall. So far as possible Gen. Blust enhalisted on the creamy. At Cane Hill, we believe, Captain Barber run a fouring mill for four weeks, turning out an average of serviny five barrels per day. Two-thirds of the grain from which the flour was made was baken from the rebels. Flour is worth in that recinity at least eight dollars are harm. At this price this would be a return to the Government, for that four weeks' work, of about \$18,000.
